ASSALAMUALAIKUM CHANGE BEGINS!

YOU ARE NOW IN THE WONDERFUL WORLD OF CHILDREN'S MEANINGFUL PLAY AND LEARN, WHERE SOCIAL, EMOTIONAL, IMAGINATION AND CREATIVE THINKING REALLY HAPPENS.

Welcome to the first Islamic nature-based preschool! IDRISSI Nature-based Preschool is a licensed kindergarten under the Ministry of Education Malaysia, following the mandated Kindergarten curriculum in an innovative nature-based outdoor and indoor play-learning concept with Islamic principles of learning. As a family member of the IDRISSI Eco-Islamic International School, lessons at IDRISSI Nature-based Preschool is not only nature-based but also bookless, which makes learning experience for our students more vibrant and dynamic.

CORNER-BASED LEARNING FOR SKILLS-CENTRIC EDUCATION PRODUCING SOCIOEMOTIONAL READY GENERATION

The IDRISSI Nature-based Preschool is like a home living centre split up to several special different corners where students can move from one corner to another to explore and experience the different adventures each corner offers.

MAKE & TAKE CORNER

We are the first preschool in Malaysia adopting this concept - an art space where students can freely experiment (and get messy!) with a variety of art mediums and techniques such as finger painting, colour mixing, building three-dimensional objects and lots more. The corner also provides a variety of sensory materials for the students to create and work with, such as homemade playdough or silly putty. This allows our students the opportunity to strengthen the muscles in their little fingers and hands which is essential for fine motor control and development. Students also feel good while they are creating art and this helps to boost self-confidence. They are free to participate in art projects that changes daily and coincide with the weekly subtheme and subject. The best part is that they can take their work of art home to show to their parents!

NATURE BASED CORNER

An outdoor (garden) corner where students explore nature-related skills and concepts. This corner gives students an opportunity to learn about the outdoor environment in a safe and pleasant place. Students can learn new skills, have fun playing while developing self-confidence and teamwork through various activities such as tending to plants and growing their own food together. Most of our students enjoy being outdoors and love digging in the soil, getting dirty, creating things and watching plants grow.

Our plants thrive and grow by absorbing sunshine, and so do our students. Time spent outdoors is beneficial for our students emotional and physical wellbeing. Involvement in gardening generates a sense of purpose, while soil under their little fingernails is a healthy sign of connecting to nature! Handling a delicate seed or seedling provides them with a tactile connection to life. They also harvest the lettuce, carrots, and herbs they grow and turn them into tasty nutrient-rich snacks of goodness for their growing body.

SAFE CORNER

The Safe Corner is an environment where a student can express him or herself freely to the teacher in charge, especially challenged learners who have social and educational difficulties, such as students who are shy, cannot express themselves or have low self-confidence. This is achieved by conducting social skills activities that teach the students how to be a good listener, take turns, make friends, practice empathy, manage big emotions, and more. The Safe Corner offers a lot of benefits to our students in developing their pro-social skills. This is an especially important aspect to address as research has shown that academic success of a child in the first few years of school is significantly based on the development of his/her social and emotional skills.

HAPPINESS CORNER

The Happiness Corner is where students learn and practice religious education and activities. Some of the activities carried out at the Happiness Corner are:

- Learning and practicing the traits, morals and characters of good Muslims.
- Learning about Dzikir & Duaas
- Listening to stories of prophets
- Memorising and reciting prayers
- Knowing Allah (SWT) our Creator
- Learning about Wuduk and Solah

LITERACY CORNER

When literacy class is a great mixture of phonics, storytelling, songs, blending and segmenting, then you have to know that you are in **IDRISSI** Preschool. There's a lot of Drama and Show and Tell time. At the Literacy Corner, students not only improve their conversation in English, they also learn how to take turn to speak, respect others, improve their listening skills and gain more self-confidence. **IDRISSI** Preschool utilises the widely known Jolly Phonics syllabus as an aid to teach our students pronunciation using fun and energetic methods.

CIRCLE TIME

Circle Time is a morning ritual at **IDRISSI** Preschool. It can't be any nicer than having to start the day huddled together at Circle Time with your beloved teacher and friends. During Circle Time, students share their thoughts and feelings, and are briefed about the day's plan and activities. Circle Time is a great way for our students to experience a sense of community and belonging with each other while enhancing their social skills and improving their attention span.

Come and visit **IDRISSI Nature-based Preschool** and see it yourself!
We are open Mondays to Thursdays from 9am to 4pm and on Fridays 9am to 12.30pm. Call us now!

"Alright. Let's go for a 'Bear Hunt',
Mommy and Daddy!"
